He strongly condemned moderate drinking, waich, he urged, would finally end in the man's becoming a drunkard. " Moderate drinks," he declared, "are the drops of water that make up the ocean of a man's ruin. Excessive drinking is the cause of much more misery. Ten thousand souls are going down every year to drunkards' graves, and yet some people tell us we stand in the way of personal liberty; that we are fanatics—we who talk against drinking. If that is fanaticism put me down as a fanatic a thousand times." He closed by hoping all would lend their influence to the temperance

An Attempt to Blow up a Church

By Anglo-American cable to the Dispatch.]
MADRID, April 23.—An attempt was made this morning to destroy the Church of San Luis, in this city. An explosive was placed inside of one of the enormous hollow candles which stand on either side of the altar. The explosion, instead of taking place while the church was crowded, as probably intended, occurred before the people began to arrive for Good Friday services. The edifice was badly wrecked, and for a time was filled with smoke and flying debris. Two sextons, who were in the building, were badly burned. The outrage has produced profound and wide-spread excitement and indignation in the city. No trace of the identity of the person or persons engaged in the conspiracy has yet been found.

I saw the advertisement of Swift's Spe-eific, and i determined to give it a trial as a last resort. I had given up all hope of being sured, as I had gone through the hands of the best medical men in Nottingham and New York. I took six bottles of S. B. S. and I can say with great joy that they have sured me entirely. I am as sound and well as I ever was in my life.

BLUODD

Is the life, and he is wise who remembers it. But in March of last year (1884) I contracted blood-poison, and being in Savanah, G., at the time, I went into the hospital there for treatment. I suffered very much from rheumstism at the same time. I did not get well under the treatment there, nor was I cured by any of the usual means. I have now taken seven bottles of Swift's Specific, and am sound and well. It drove the poison out through boils on the skin.

THE HYGEIA HOTEL WILL CON-TINUE to be operated under the same liberal policy which has always character-ized its management, and while a reduction of from 15 to 50 per cent, has been made in the rates for the season of 188s, the high standard of excellence which the place has always enjoyed will be in all respects maintained.

I am a native of England, and while I was in that country I contracted a terrible blood-poison, and for two years was under treatment as an out-door patient at Not-tingham Hespital, England, but was not cured. I antifered the most agentzing paties in my bones and was covered with sores all over my body and limbs. I had vertigo and deafness, with partial fees of sight, severe pains in my head and eyes, etc., which nearly ran me crazy. I lost sit hope in that country and salled for America, and was treated at Rosseveit, in the city, as well as by a prominent physician in New York having no connection with the hospitals.
